

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1. (Original) An apparatus for cooling charge air and exhaust gas in particular in a motor vehicle with internal combustion engine, having a recirculated exhaust-gas stream and a charge-air stream, characterized in that the exhaust-gas stream is cooled by means of a first and a second heat exchanger, the charge-air stream is cooled by means of a third heat exchanger, before the exhaust-gas stream and charge-air stream which have been cooled in this manner are combined.
2. (Original) An apparatus for cooling charge air and exhaust gas in particular in a motor vehicle with internal combustion engine, having a recirculated exhaust-gas stream and a charge-air stream, characterized in that the exhaust-gas stream is cooled by means of a first heat exchanger, the cooled exhaust-gas stream is combined with the charge-air stream, and the mixed exhaust-gas/charge-air stream is then cooled by means of a second heat exchanger.
3. (Original) An apparatus for cooling charge air and exhaust gas in particular in a motor vehicle with internal combustion engine, having a recirculated exhaust-gas stream and a charge-air stream, characterized in that the exhaust-gas stream is combined with the charge-air stream and the mixed exhaust-gas/charge-air stream is then cooled by means of a heat exchanger.
4. (Currently Amended) The apparatus as claimed in ~~claims 1 to 3~~ claim 1, characterized in that the recirculated exhaust-gas stream can be controlled by means of a valve.
5. (Currently Amended) The apparatus as claimed in claim 1 ~~or 2~~, characterized in that the first heat exchanger and the second heat exchanger are formed as separate heat exchangers.

6. **(Currently Amended)** The apparatus as claimed in claim 1 ~~or 2~~, characterized in that the first heat exchanger and the second heat exchanger, as separate heat exchangers, are formed as a structural unit.

7. **(Currently Amended)** The apparatus as claimed in ~~one of claims 1, 5 or 6~~ claim 1, characterized in that the first and/or the second and/or the third heat exchanger are formed as a structural unit.
